NEHA KUMARI

Linkedin || Github | Portfolio   8299350629 || nehakumarisde@gmail.com

Education

- ❖ Navyug Girls Degree College, Lucknow | BA | CGPA- 8.09 | 2022-2025
- ❖ XII (ISC) || Lucknow Public School, Lucknow – 98.25% | 2022

SKILLS

- ❖ JavaScript, HTML5, CSS3, Nextjs, TypeScript, React, Bootstrap, TailwindCSS, Angular, RESTful APIs [Frontend]
- ❖ MongoDB, MySQL, PostgreSQL, Node.js, Express[Backend]
- ❖ Git || Github || Postman || Remix
- ❖ Web3, Blockchain, Solidity
- ❖ AI: Gen and Agentic || Prompt Engineering

PROJECTS

- ❖ **PopUp Learning dApp | Github | web3 | Solidity | JS**

  Built a PopUp Learning DApp is a decentralized application designed to enhance learning through interactive challenges, rewards, and NFTs. Users can create, view, and participate in challenges, mint NFTs, and explore a marketplace for trading.

- ❖ **AstrophileYard: Cosmic Hub for Stargazers | Preview | MERN**

  Conducted **6+ weekly updates and** dedicated to astrophiles who 'keep looking up' and through this web app, they can utilize the upload section to drop their astro-imagery or glance at the cosmic gallery, view APOD and unravel the mysteries of the cosmos.

- ❖ **Xpensigium | Preview | MongoDB| Nodejs| Express**

  Cast Xpensigium(Appare Vestigium) on your next expend to keep track of all your household expenses with seamless budget monitoring and spending insights at one go!

- ❖ **Tomato:Food Delivery Web App | Preview | Javascript**

  End-to-end MERN stack food delivery web app for users to login/signup and seamlessly order and relish their cravings of the moment.

Experience

- **GSOC-Extd'2024 || Contributor | Badges**

  12%Helping, 15%Solving, 73%Contributing and showcasing my tech knowledge and adept problem-solving skills via participating in GSOC projects, PostmanAPI certifications, 8PRs merged successfully, bagging trust, flair and merits from PA.

- **Web Development Intern || [Zidio Development]   20-05-2024-20-06-2024**

  Spearheaded and built Resumiarmus: a resume builder web app achieving A+ grade with 8/10 in code and 9/10 in QnA, with my performance securing a total of 77%.

- **Reactjs Developer Intern || [CODSOFT]   10-09-2024-10-10-2024**

  Reactively optimized and developed three Projects on:-

    - Blogram: A Resourceful Blog Platform
    - QuizBolt: A robust Online Quiz creating, taking and Sharing web app
    - Cartalyst: Catalysing cart experience of users and redefining their product catalogs through harmonious cart update functionality.

- **Developer Toy || [Buildspace]   10-06-2024-15-07-2024**

  42 days of scratch-building 100% of astrophile web app from presenting its prototype to ideation, meticulous feature integration with seamless ui/ux to consistent 6+ weekly-updates and demo launch at the end brought forth my passionate idea into reality.

- **PLDG Cohort 2 Contributor || [Protocol Labs]   21-01-2025**

  2.5+ months ongoing with 13 weekly-updates diving into real-world, open source contributions while working with various tech builders-IPFS, Storacha, Akave, Libp2p, Filecoin. Disciplined check-ins, error fixing, feature implementation, improving, docs reading, connecting and collaborating are the status quo while working on various real, industry level projects.
